2. Legislative leaders have placed a referendum on the November ballot that would amend the state constitution to allow lawmakers to raise the income tax on some high-income earners and middle-class small businesses. If the election were held today, would you support or oppose the legislature’s ballot question to raise the income tax?

	Strongly Support	Somewhat Support	Somewhat Oppose	Strongly Oppose	Not Sure	Total
3. If the ballot measure passes, the legislature would be able to raise state income taxes from 5% to 9% for some high-income earners and middle-class small businesses – meaning that those people could see their taxes increase by 80%. Do you think this increase is too high, too low, or just about right?

5. Proponents state the proposed income tax increase will only affect high-income earners. However, the tax would also apply to many middle-class small businesses due to the way they file their taxes and on small business owners who sell their small business. Does this make you more or less likely to support the legislatur'e ballot measure?

7. Massachusetts lawmakers have about \$13 billion dollars in additional tax money that was not expected or budgeted. This windfall is largely from federal COVID relief funds and significantly higher than expected tax collections in 2021. The legislature’s ballot question would generate an additional \$1 to \$2 billion dollars in taxpayer money. Does this make you more or less likely to support the legislature’s ballot measure?
